

Feedback as pedagogy

superficial uptake →
productive engagement
when judgement is required

Authorial voice & agency

ownership erodes at
text-generative loci;
preserved at ideation loci

Process pedagogy

offloading → laziness
unless restructured into
a scaffolded cycle

Organising principle

The locus and structure of
AI intervention — not its presence
or quantity — determine whether
instruction builds or erodes
writerly capacity.

**Stance-Structure framework
(Figure 1)**
